

ScholarRise

School is “different” this year. Group distance learning is necessarily being used but may not be geared to your scholar’s individual learning style or provide the enrichment that you desire. No need to worry -- we are here to help your Scholar Rise! We are passionate highly-trained educators committed to ensuring your scholar’s academic excellence. Working with your scholar’s curriculum and ours, we offer academic assistance to “catch up” and enrichment to “go beyond.”

NYAH WILKINSON

When I look at the experiences that I have chosen (coaching track and cheerleading, varsity and college track and Field Hockey, Study Abroad, employment counseling and caring for young people, mentoring, Girl Scouting, church activities, gaining customer relations and management skills catering and running my business venture “Sunday Dinners,” etc.) and the people who continue to touch and help shape my life – I understand my choice to pursue a Bachelor of Science degree in Elementary Education from Towson University. My decision placed me exactly where I am supposed to be at this time in my life – “The Classroom” and is allowing me to do exactly what I am supposed to be doing, and what is desperately needed, right now – “Enriching the lives of young people through education and instilling within them a desire to learn, to explore, to question and to understand.”
